

# Depth. Definition. Dexterity.

Introducing the Q B12 subwoofer by Q Acoustics.

The first Q Acoustics subwoofer to feature a 12in driver brings all of the depth and drive your home cinema system craves, along with all the detail and subtlety your music needs. Iron-fist punch meets velvet-glove control in Q B12 - it's the subwoofer your audio set-up deserves.

**WHAT HI-FI?**

"The QB12 smashes through the action like a steam train, hitting you right in the stomach and taking your whole body along with it. it's precise, detailed and really rather dynamic."

*What Hi-Fi, October 2019*

Designed to complement the Q Acoustics' Concept and 3000i range of stereo and centre speakers and available in matching finishes. Create the ultimate home cinema system with the Q B12.
